

**THE BRITISH COLONIST.**  
Monday Morning, May 4, 1868.  
**TO ADVERTISERS.**  
Transient Advertisements must be paid for in advance to insure insertion.  
**TO AGENTS.**  
Settlements of accounts will be required monthly, or the supply of papers will be discontinued. The daily and weekly issues will be sent at the lowest cash rates, and an exception will in future be made to this rule.  
The News is "at sea" again—this time, very appropriately, on the subject of the ocean mail subsidy. He has turned whitewasher-general for the California, Oregon and Mexico Steamship Company, and supports the interests of that monopoly against those of the Colony and the travelling public with an unwholesome disregard for facts which shows that the writer either does not understand the subject he attempts to deal with or that he has a personal interest in defending the outrageous exactions and shameful treatment we have sustained at the hands of that company. The News claims that the mail service has been well performed by the steamship company in "good boats," but the fact is notorious that the only "good boat" (the Oriflamme) that has visited us since the Del Norte was taken off was put on for the express accommodation of American officers bound for California was advertised for Victoria and Alaska, telegraphed down that they would not accept that ship for the service, so she was withdrawn and the Oriflamme substituted. Our cotemporary further asserts that the Company only receive \$500 per trip for bringing the mails, but he conceals the fact that the Admiral pays an additional \$250 for the Naval mails—making a total subsidy of \$750 each trip. We are accused in the same article of wishing to secure a subsidy for the Wright or one of the Far Company's steamers. What we said was (and we beg to repeat it here) that it would prove more beneficial to all classes were our Government to pay an opposition boat \$2,000 for bringing the mails twice a month than it would prove to pay half that sum to the regular line once in five weeks and thus assist them in running off all opposition. To establish the correctness of this opinion we have only to direct public attention to the flimsy state of our mail communication for the past few months. From the 10th February to the 17th April we received mails but twice, and this is the "efficiency" which our cotemporary says "has been proved," and which he advises us to continue. It "has been proved" entirely to the dissatisfaction of the people and the Government of this colony. Our cotemporary, with all the zeal of a shareholder in the California, Oregon and Mexico Steamship Company, anxious to keep shares up by frowning down all interference in the business, deprecates the encouragement of an opposition boat, notwithstanding the glaring fact that the moment the George S. Wright was placed on the Portland trade the Active was put on the same route to "run her off." That the Wright not made her appearance, the Active would not have been heard of, and we might have whistled for our mails until the middle of May for all the steamship company would have cared. Should the Wright be run or bought off by Holladay & Brehm, the Active's trips will be immediately discontinued. Does our cotemporary want proof of this assertion? Let him then look at the conduct of the same firm before and after the loss of the Labouchere. On the day that ill-fated ship left San Francisco, cabin fare on the company's steamship Del Norte was \$15, but the very day on which the news reached San Francisco that the Labouchere had gone down, the fine boat Del Norte was withdrawn, the old steamer Oregon substituted, and cabin fare advanced to \$40. So much for the generous and disinterested course of the Steamship Company which our cotemporary supports so unqualifiedly and for which he wishes to secure a fat contract. We respectfully urge on the Government to renew the contract with Holladay and Brehm only as a *denier resort*. The colony is under no obligations, to that firm—they have only sent boats here to suit their convenience not ours, and it is the duty of the Government to encourage opposition instead of assisting the regular line (perhaps from our experience of its "efficiency" we should call it the *irregular line*) in crushing competitors and in continuing us for an indefinite period in the clutches of monopoly. Should an opposition boat be subsidized, we shall have two steamships and secure reasonable fares for the next twelve months; but should the California, Oregon and Mexico Steamship Company obtain the contract, opposition must be withdrawn, and we shall have a return to the infrequent communication and high fares we have groaned under for two years past.  
If you wish the very best Cabinet Photographs, you must call on **HEADLEY & ROLANDSON**, 420 Montgomery street, San Francisco.

On Friday His Excellency the Governor closed the Legislative Council with an address which certainly does him credit. The sentiments it contains show a just appreciation of principles which it carried out will have the happiest effect on the Colony and extinguish the irritation of the past. It is always desirable the Executive and Legislative should work harmoniously, and it is gratifying to see some of the important measures passed by the one so cordially received and supported by the other. In another column will be found the measures to which His Excellency has given the Royal assent, and those which at present he holds in abeyance. In reference to the latter we do not see any particular fault to be found with the motives assigned for such action. His Excellency promises us that Confederation is not slumbering, and the constitution of the Council in its present shape can only be regarded as provisional. We think therefore he might have gone a step further, and given a distinct assurance that both these important issues should be strongly and properly represented to the Imperial Government. We are glad to find the chief of the Executive at last confirms the opinion we have long expressed, of the gradual improvement in the general affairs of the Colony; and that on meeting again he predicts for the Council a more agreeable task than the one they have just performed. In bidding adieu to the Legislature for the session, we cordially acknowledge the industry, intelligence and excellent spirit they have evinced throughout, feeling assured that their sittings though short, will be of great service to the Colony hereafter.  
**Legislative Council.**  
SATURDAY, April 25th.  
The Council met at 11 a.m. Present—Hons. Ball, Pemberton, Stamp, Walkem, Wood, Elwyn, DeCosmos, Ker, Hamley, Elwyn, O'Reilly, Spalding, Trutch, Helmecken, Cox, Smith, Young (presiding).  
Hon. Helmecken presented a petition from the citizens of Victoria against the bill for the creation of a Patent Ship.  
Hon. Helmecken moved the introduction of an Ordinance for the encouragement of the study of anatomy. Leave granted, and bill read first time. Second reading fixed for Monday.  
Hon. Pemberton gave notice of motion that a protest be entered that the expenditure of the Government was out of proportion to the white population of the colony, and in direct opposition to the recommendation of the Secretary of State, that the expenditure be based on the amount of the revenue for the past two years. Entered accordingly, and signed by Hons. Pemberton, DeCosmos, Stamp and Helmecken.  
The House then went into Committee of Supply. Hon. O'Reilly in the chair.  
Hon. DeCosmos thought the Magistrate at New Westminster could fill the requisite position for New Westminster, Yale and Clinton, and with one for Kootenay, and one for Cariboo, the magisterial duties would be sufficiently performed. He thought the Magistrates should be allowed to remain at their posts, and not be permitted for business or pleasure to have their duties performed by subordinates.  
Hon. Helmecken thought that Magistrates left their posts, neither from reasons of business or pleasure, but in consequence of the present formation of the Council, which required their presence. If any alteration of the present system was to be arrived at the solution must be sought in an alteration of the present Constitution.  
In reference to the present system of a paid Magistracy, adverted to by one or two hon. members.  
Hon. Young said the system might be bad or good, but the great object to be attained was economy, and in furtherance of that object, Her Majesty's Government had been applied to, and had determined to remove one or more of the present Magistrates, as soon as possible. The present state of the colony, however, made the staff as at present existing necessary for the efficient conduct of the service. As to the presence of the Magistrates here, they were compelled to leave their posts owing to the present opposition of the Council.  
Hon. Walkem was sure it could be no pleasure to the Magistrates to sit in that House as targets for the shots of hon. members. In regard to their present efficiency he knew their duties to be extremely valuable to the country. Their position enabled them to acquire much valuable information, not only of value to that Council, but also in their capacity of Commissioners of Crown Lands, and a variety of other duties performed by them, which could not be so efficiently performed by any other officers in the colony.  
Hon. DeCosmos—Earl Carnarvon had furnished the Governor with power to discharge any official that he might think unnecessary, with a view to the carrying out of the measures of economy suggested by the Council, and he thought that power might be exercised in relation to our present staff of Magistrates.  
An excited discussion ensued as to a question of order.  
Hon. Wood (in reference to alleged direct contradiction of an hon. member) Why should language be tolerated in this House, which would not be permitted in ordinary society?  
Hon. Elwyn was sure that three Magistrates would not be enough for the proper performance of the duties. In 1864, nine magistrates were then thought necessary, but now there were only five.  
Hon. Trutch—The Magistrates are of the utmost value to the Lands and Works Department. Without their assistance it would be impossible to conduct the business of that department, with its present staff, so that there could be no argument on the score of economy for their reduction. If the Council was to act on the suggestion of the hon. member for Victoria, the Magistrate for the Yale, Clinton, &c. District would have an extent of country to travel over of 450 miles north and south, by 350 miles east and west, an amount of jurisdiction impossible to administer efficiently, and travelling expenses would be more than sufficient to pay another Magistrate.  
Hon. Smith moved that the Magistrate for Kootenay be paid \$3,400 instead of \$3,000 as appeared in the Estimates. The nature of the country under his control, attended with considerable expense and the duties with privation. Any other station was luxurious compared to that one. The sum was only the amount allowed last year for the same service. The motion was carried.  
Hon. Helmecken moved that the prisoners be taken down to Victoria, and by this means the jails amalgamated. The resolution being amended as to recommend the concentration of the prisoners where they could be most economically kept, the resolution was agreed to.  
Hon. Wood moved that \$1,000 be added to the estimate to be expended in a law library for the Supreme Court. After some discussion, the motion was lost.  
Hon. Helmecken—The amount appropriated for the Hospitals, \$5,000, would not be more than sufficient for the proper maintenance of one. The hon. gentleman spoke in strong terms of the disproportion of this item compared with others for a less estimable purpose.  
Hon. Robson moved that the appropriation be increased to \$10,000. Carried.  
Hon. Robson moved that the sum set apart for educational purposes be increased to \$10,000. The item was deferred till Monday.  
In the course of the discussion on this item, Hon. Young said he expected the arrears to teachers would be paid in three or four days.  
Hon. Pemberton proposed that the sum of \$250 should be added to the item for rent at Nanaimo, in order by this means to add thereto an allowance of Magistrate, that officer being insufficiently paid. The addition would make his allowance equal to \$1,950. The resolution was carried.  
Hon. Stamp moved the following appropriations:—  
\$1,000 for a trail between Clinton and Lytton; \$3,000 for trail from Douglas street road by Falls Creek to Burrard Inlet, both of which were carried.  
Hon. Helmecken—The maintenance of officers for the suppression of the liquor traffic with Indians was a farce. The law was a mere sham. He had received a letter requesting that a gun boat might be sent up the coast to capture the whiskey schooners. The Indians got all the whiskey they wanted in spite of the law.  
Hon. DeCosmos wished to know why the item for the Assay Office appeared in the Estimates after it had been distinctly understood that the establishment was to be closed at the expiration of last year.  
Hon. Young produced a great number of petitions from various parts of the colony, praying that the Assay Office might be retained. The Executive had considered the subject maturely, and in accordance with desire of the Council, but after receiving the petitions produced, thought themselves justified in continuing the establishment. The office had cost nothing during the previous year, as the slag sold, produced \$4,000. The official members would vote on the subject as their feelings might dictate, but if the house shut up the establishment they must take the responsibility, as they would be doing so in the face of the petitions he had produced.  
Hon. DeCosmos moved that the Assay Office be closed.  
Hon. Walkem—The Assayer had nothing to do, and under any circumstances the office was overpaid; he supported the motion to close the office.  
Hon. Ball—The Assayer was the only mineral assayer in the colony, and rendered valuable service in making gratuitous assays. Hon. Walkem suspected the officer was retained because they could not get rid of the incumbent.  
Hon. Helmecken concurred with those petitions; the Government was perfectly justified in retaining the office. If people asked that such expensive establishments should be kept up, let them forever hold their tongues on the subject of retrenchment.  
Hon. Robson—The Victoria papers perhaps falsified figures and made the assayer look worse than it was.  
On division on DeCosmos' motion to close the office, the motion was lost; DeCosmos, Pemberton, Wood and Walkem voting in affirmative.  
Hon. Walkem moved that the Officers of the Assay Office be attached to some other department to fill up their time.  
Hon. Pemberton moved that office be moved to some other part of the colony. (This was attached to Hon. Helmecken's motion and the joint resolution was carried.)  
In the course of debate on item of interest Hon. Young said no fresh debt had been incurred during the past year, and in fact considerable liability had been cleared off.  
On the item for Government vessels.  
Hon. Stamp wished to know if private parties had not tendered for the service at a much lower figure than it cost to support Government vessels. He also complained that the Douglas had been engaged in towing.  
Hon. Young said strong representations had been made to the Executive in favor of retaining the Douglas on the station. She had only towed one vessel, and that was in consequence of there being no other steamer to be had, and under circumstances of pressing necessity.  
Hon. Pemberton—If the Douglas is taken off the station, whole settlements would be abandoned.  
Hon. Trutch—The Douglas takes the place of a road, which, if the steamer were removed, must be constructed, so that on the score of economy the steamer was the best. As to tenders for the service, they had been duly published and no acceptable offer had been sent in. The Douglas must remain till another suitable steamer was found to replace her.  
Hon. Spalding—The only steamers offered for the service were wholly unfit for the work. If the Douglas was withdrawn settlements that were doing well now would be abandoned.  
Hon. DeCosmos thought the steamer that plied between Victoria and New Westminster would perform the service sufficiently well in addition to present employment, for less than half the sum expended for the steamer Douglas.  
Hon. Young did not see how that could be accomplished; at any rate no such offer had been made, and ample time had been given to the proprietors to tender.  
The Committee rose, reported progress and asked leave to sit again.  
Bill to increase duties on Fruit, read a first time; second reading for Monday.  
The Council then adjourned till 8 o'clock this evening.  
**EVENING SESSION.**  
Saturday, April 25.  
Council met at 8 o'clock, p.m. Present, Hons. Crease, Spalding, Hamley, Wood, Cox, Stamp, Trutch, Pemberton, Helmecken, DeCosmos, O'Reilly, Ker, Ball, Smith, Young (presiding).  
The House resolved itself into Committee of the Whole on Supreme Courts Bill. The old bill having been taken up first—after considerable discussion the following clauses, being all now comprised in the old bill, were passed:—  
Clause 1  
Clause 6 (formerly) to become clause 2  
Clause 7 ..... 3  
Clause 14 ..... 4  
Clause 15 ..... 5  
The Committee then passed to the new bill.  
After passing a number of clauses, the two bills, copying the whole evening, the Committee rose, reported progress and asked leave to sit again.  
**EVENING SESSION.**  
Thursday, April 30.  
Council met at 8 o'clock, p.m. Thirteen members present.  
Loan Societies Bill—After long discussion deferred till next session.  
Anatomy Bill—Met with determined opposition and was ultimately thrown out.  
Fruit Bill—President ruled the bill out of order and it was accordingly lost.  
County Courts Amendment Bill, after some

discussion in Committee, deferred till tomorrow.  
Shipping Amendment Ordinance—Reported completely by Committee.  
Council adjourned till twelve to-morrow.  
Friday, May 1.  
Council met at 12 o'clock. Thirteen members present.  
Hon. Helmecken gave notice of motion respecting Drawbacks.  
Shipping Amendment Ordinance—Read third time and passed.  
Wood's motion to pay the school debt of Vancouver Island, referred to consideration of the Governor.  
On amendment being carried, a protest was entered by hon. Helmecken.  
Thompson (Spence's) Bridge Ordinance, read third time and passed.  
On report of Select Committee on Postal matters being read, strangers were ordered to withdraw.  
County Courts Bill evoked long debate, and was ultimately shelved.  
At half past two, the Governor entered the House and delivered prorogation speech, after which the Council dissolved.  
**PROROGATION SPEECH.**  
Honorable Gentlemen of the Legislative Council:  
I think I can without detriment to the public interests, relieve you to-day from further attendance on your Legislative duties. I have no doubt that the people of the colony will concur with me in acknowledging the public spirit and industry you have displayed during this short but important session.  
I will take the proposed measures of Legislation into consideration first.  
I assent, in Her Majesty's name, to the following Bills:  
The Limitation of Actions Ordinance.  
The Hudson's Bay Titles Confirmatory Ordinance.  
The Fire Enquiry Ordinance.  
The Legal Professions Ordinance.  
The Intestate Estate Ordinance.  
The Trustees Relief Ordinance.  
The Shipping Amendment Ordinance.  
The Thompson Bridge Ordinance.  
Finally, I assent with satisfaction to the Appropriation Ordinance. You may rely on the utmost economy in the expenditure of the funds at the disposal of the Government.  
With every respect for the ladies composing the Society of the Sisters of St. Ann, I must hesitate a little before bestowing the Royal Assent on the Bill for their Incorporation.  
The Bill proposing to establish a Supreme Court of Justice in British Columbia I shall reserve for Her Majesty's consideration.  
I turn now to the resolutions in favor of certain future measures of Legislation. I have to state that I quite agree with you in the opinion that some General Laws regulating the acquisition of mineral land is urgently required. Under the present absence of system land is frequently locked up, to the detriment of the colony, in the hands of companies who have not capital to work its mineral wealth, and conditions, frequently onerous, are, on the other hand, imposed in the leases the observance of which the Government has not the means of looking into. The question shall receive very careful attention during the recess.  
I do not yet feel sufficiently acquainted with the practical working of the Vancouver Island Road Act to judge of its applicability to the districts immediately surrounding New Westminster.  
The protection of native grown fruits seems hardly a sufficient cause for disturbing the Customs Tariff of the colony only passed last year.  
No one is more impressed than I am with the desirability of establishing a Court of Appeal in this colony.  
Perhaps, of the duties devolving on the Governor of a new colony, there are none so agreeable as the opening up the country and developing its resources. Therefore I shall be happy if I can find the means of opening a trail, if only passable for mules, through the Eagle Pass.  
I think that we shall be able to survey a line for a road from Pitt River to St. Mary's Mission this year; but I see no chance of the funds being immediately forthcoming for its formation.  
I fear that I shall not be able to sanction the employment of the prisoners in the formation of a wagon road from Gold stream to Cowichan. There are many points to be considered in the working of men whom we hope to reclaim.  
The important Resolutions passed by your honorable Council in committee of supply shall receive ample attention. I shall be but too happy to attend to the general purport of your resolution in favour of aid to the hospitals; nor shall the subject of Education be overlooked.  
Some apprehension exists as to the size of the Bonaparte Reserves. Their extent is but one half of that stated in the petition presented to you. I will see if they can be still further reduced; but I apprise you that the land which could be reclaimed from the Indians would barely pay for the expense of the survey.  
I notice that while adhering to your vote of last year in favor of Confederation with Canada, you are of opinion that it is not necessary to take any further steps in the matter at present. I think your resolution a wise one. The question is by no means slumbering, but the difficulties of the project are seen clearer by those who have a wider range than we possess, and without whose material assistance our efforts would be but vain.  
You desire a larger popular element in the hon. Council. Possibly a too violent reaction from an unsatisfactory state of things has taken place. All must admit that the present Legislative constitution is theoretically unsuited to the Government of any large English community. My faith in the future of British Columbia leads me to consider it but provisional. I shall carefully consider the nature of the recommendation if any, which I tender to Her Majesty's Secretary of State in the matter.  
Firmly believing that the affairs of the colony are gradually, though slowly, improving, I think that when next the Legislative Council meets, a more grateful task will be before them than you had to deal with at the commencement of the Session.  
I now bring it to a close.  
I prorogue this Legislative Council, and the same is hereby prorogued accordingly.  
**FRED PAVNE** has removed his **Chap Shaving Shop** to the opposite side of Johnson street, just above the Miner's Saloon.

**New Advertisements.**  
**NOTICE.**  
ALL CLAIMS AGAINST MR. ARTHUR BUNSTER, of Johnson street, Victoria, B. C., Brewer, are requested to be sent in to my Office, Masonic Buildings, Government street, Victoria, on or before 4 o'clock p.m., of Tuesday, the 5th of May, instant.

**DURING** the important discussion in the Council proposing a change in its constitution, our readers will not have failed to notice there were only nine members present, and that on the vote being taken four were against and four in favor of the change, and the casting vote of the President carried the resolution. For this just and spirited action Mr Young deserves the thanks and praise of our community. It is always a wise thing for legislators to study the wants of the people for whom they make laws, to cultivate liberal ideas and support progressive measures. That our Council, in its present shape, is altogether unsuited to our condition, is admitted on all sides, and we take it Mr Young could not have done anything more pleasing to or consistent with public sentiment than giving his vote in favor of the proposed change. Much of the utility of the present session, and much of its harmony, is due to the business capacity and able management of its presiding officer; and we trust this act of Mr Young does not spring from an ignominious desire to court a fleeting popularity, but, springing from conviction, it is meant as a pledge of his thorough identification with the people, their wishes and necessities.

**THE FIRE.**—Yesterday we visited the ruins of Mr Bunster's brewery, and they presented indeed a sad sight. Of the brewery, there is nothing left but a few tottering walls. The grist mill, however, was not damaged except being scorched badly on the side next the fire. It was fortunate, with the wind blowing as it did, that the malt kiln withstood the heat, or the fire would undoubtedly have extended to Pandora street, and caused a damage the extent of which we can scarcely estimate. As it was the Presbyterian Church had a narrow escape. In the great misfortune which has thus suddenly overtaken Mr Bunster, it must be gratifying to his feelings to receive the universal sympathy of his fellow citizens, a sympathy which will not end in mere words. There were about 80 hogheads of ale consumed with the building and the total loss is estimated at \$25,000. All praise is due to the Fire Brigade, who worked incessantly from midnight until 7 o'clock the next morning.

**THEATRE ROYAL.**—On Saturday night the extravaganza of Pocahontas was put on the stage in a very creditable manner and afforded much mirth to the audience. Some of the local hits were good, but the political ones were better. Mr and Mrs Stone were effective, as usual. The best character of the night was Mr Marsh's Powhatan, for which he was called before the curtain. On Tuesday night will be presented for the first time in this city the admired and successful comedy of Caste. Amy Stone as Polly Eccles will no doubt be unusually good, while Messrs Stone as Sam Gerridge, Clark as Captain Hantree, Marsh as Eccles, with Mrs Powell as Esther and Miss Field as Marquise de St Maur, promise to make the night an entertainment one of the best the troupe have yet given.

**JONES'** new steam door, sash and blind factory has commenced business. The establishment is fitted with modern machinery and possesses every facility for executing the best description of work with expedition. The present tariff, however, is unfavorable to the interests of this establishment, inasmuch as the duty levied on foreign-made sashes fitted with glass is 15 per cent, while the duty on glass imported without sashes is 12½ per cent. The manufacturer who makes his sashes here pays the duty on glass, and has barely the advantage of 2½ per cent. over his foreign competitor. This ought to be attended to by the Council at its next session.

**FROM NANAIMO AND COMOX.**—The Sir James Douglas arrived from the east coast on Saturday evening. One ship was loading with coal for San Francisco. The strike talked of among the miners at Nanaimo is not likely to take place. The works are going on as usual. We are glad to hear this, and we think the men will not wisely in keeping steadily at their employment. Certain of regular work, fair wages and prompt pay, they are better off than most people on this coast. There are thousands of poor fellows in California who would be glad to jump in their places, and who need but little inducement to come this way. At Comox the settlers were in fine spirits at the prospects before them of large crops.

**THE STEAMSHIP ACTIVE,** Capt Floyd, arrived from Portland at halfpast 2 o'clock yesterday afternoon, with 23 passengers and a large freight. Among the passengers were Col. Hodge, U. S. A., wife and child; Captain Grange, U. S. A.; Lieut Caughlin, R. N.; and T. H. Long, Esq. of the COLONIST. We are indebted to Mr C. A. Shively, Parser, for the usual favors.

**REVIVING.**—On Tuesday J. P. Davies & Co. sold by auction three lots at the head of Johnson street for double the sum asked for the same property in January last. The improvement observable on the mainland is beginning to exert its influence in this city.

**EDUCATIONAL.**—The Chairman of the Board of Education, on Saturday, received a check for \$3000 from the Government to be used in paying the arrears of school teachers. This looks well.

The Enterprise arrived on Saturday evening with 40 passengers and \$75,000 in treasure for the Banks. The hon members just released from duty by the prorogation of the Council, came in her.

**NOR FERT.**—The blow of Friday and Saturday, which was rather severe in this quarter, was sorely felt below Cape Flattery, and the Active crossed Columbia River Bar without difficulty.

Among the late arrivals at San Francisco we notice the new clipper ship Lady Bird, from Liverpool, Capt. Fred Mallandaine, brother to Mr E. Mallandaine, of this city.

The schooner A. Crosby, laden with Nainaimo coal for Portland, Oregon, came to anchor in the outer harbor yesterday morning.

It is reported that the terminus of the Northern Pacific Railway will be at a point midway between Seattle and Steilacoom on Puget Sound.

A LARGE American and English mail was received yesterday.

Snow fell to a depth of three inches at the 83-mile post (wagon road) on Saturday.

The Geo. S Wright from Portland is due here to-day.

**By Electric Telegraph**  
SPECIAL TO THE DAILY BRITISH COLONIST.

**LAST NIGHT'S DESPATCHES.**

**California.**  
SAN FRANCISCO, April 29.—The grand dinner given to the Chinese Embassy at the Lick House last evening was an imposing affair. Governor Haight presided. The speech of the occasion was by Mr Burlingame. He declined to develop the full object of the mission, as he considered it improper to do it before it had been laid before the Government at Washington, but he was impressed with the fact that it was fraught with great benefit to the civilized world, and especially to the United States.

SAN FRANCISCO, May 1.—Steamer Golden City arrived this morning. The steamer Arizona left New York to-day with 1100 passengers. All the delegates to Democratic National Convention except one are in favor of Pendleton for President.

Legal Tenders 71½ @ 72.  
Flour to-day, we mark down prices 25 cents per lb. superfine; half sacks per 196 lbs, \$6 25 @ \$6 50; qr sacks, \$6 50 @ \$6 75; extra hlf sacks, \$7 @ \$7 25; qr sacks, \$7 25 @ \$7 50.

Wheat market dull and prices nominal, at \$2 35 @ \$2 40 for shipping, and \$2 45 for prime milling barley, nominal, \$1 45 @ \$1 55. Oats, nominal, \$2 40 @ \$2 70 for small lots.

**Oregon.**  
PORTLAND, May 3.—The G S Wright sailed for Victoria last evening at 6 o'clock.

**Eastern States.**  
CHICAGO, May 1.—A Tribune special says the Georgia constitution is ratified by 9,000 majority. The Republicans have elected the Governor by 7000 majority and secured a working majority in the Legislature.

**Mexico.**  
HAVANA, May 30.—Two hundred families have been rendered homeless by the burning of the town of Jareton. Seven lives were lost.

A report is in circulation that Minister Romero has been sent to the United States to depreciate the bonds of Mexican Republic, and that a clique has been formed to buy in these bonds at reduced rates.

A Havana dispatch says Gen. Piquel has suspended the negotiations with the United States for the sale of the Bay of Samana, owing to Cabral being deposed. The rebellion of Gen Negrete is still unsuppressed. It is reported that he was raising troops in the north. Carales is reported as about to make common cause with Negrete.

Congress has passed the appropriation of \$30,000 for payment of foreign debt in shape of English convention bonds, and 30,000 for Spanish bonds.

**Europe.**  
LONDON, April 27.—The Times' special states: Theodore was attacked by the British advance on the 10th of April and repulsed, losing 500 men killed. He was subsequently deserted by the remainder of his troops. The King then retreated inside the fortress of Magdalla, where he was supported by some few devoted followers. He made a desperate resistance to the English, but finding his cause was made hopeless by an assault he committed suicide by a pistol-shot as the British approached his last stand point.

**Second Dispatch.**  
**The Irish Church Question!**  
**DEFEAT OF THE MINISTRY!**  
**RESIGNATION INEVITABLE.**  
The Canadian Parliament Endorses Confederation by a Large Majority.

**Europe.**  
LONDON, May 2.—The debate in the House of Commons last night on Gladstone's resolution for the abolition of the Irish Church was continued to a late hour. Some of the prominent members spoke. Lord Elcho opposed the resolution. Mr Gladstone closed the debate on the liberal side with a powerful speech against the continuance of the Irish Church. He also defended himself for his course, denying he had any part or lot in the projects either of the Ritualists or Roman Catholics. Disraeli followed in a bitter speech, calling the scheme one of confiscation and violence by which the people of England would never consent. A division

then took place on the first resolution, which was adopted by sixty-five majority. Disraeli said the ministry needed time to confer which course it would take, and the House adjourned till Monday.

The press to-day generally consider the decision decisive.

Mr Disraeli has gone to Osborne to consult with the Queen.

**Canada.**  
OTTAWA, May 2.—In the House of Commons last night McDougall of Nova Scotia moved the repeal of the Confederation resolutions. He intimated in his speech that if the people of that Province were not freed from the Confederation, bloodshed might be the result. The effort to get the House into a Committee of the Whole on the resolution was vigorously opposed, and after a long debate the motion was lost. An amendment concurring in the principles of Confederation in strong terms was carried by a large majority.

**California.**  
SAN FRANCISCO, May 2.—Sailed, brig T. W. Lucas, Port Ludlow; brig Crimea, Port Ludlow; steamer Nevada sails for Panama on the 5th, and the Golden City on the 6th.

**AUSTRALASIA.**  
By way of Panama we have Sydney dates to March 1st, and Wellington dates of March 8th.

Destructive storms have prevailed in Southern Australia. The Sydney Herald says: After very unsettled weather, extending over several days, a decided change for the worse came on during the night following March 14th, when it began to be very stormy, and continued to rain for nearly sixty hours. At Windsor, Ararat, Maitland, Singleton, and elsewhere in the coast districts, all the horrors of the late floods were expected, but happily the weather abated before so much harm was done as anticipated. The waters, however, in several places rose to a great height and swept over the low lands. His Excellency the Earl of Belmore visited the Hawkesbury district on Tuesday. The distress on the Lower Hawkesbury district is very great. On the coast the gale told heavily on the shipping.

The papers are filled with accounts of the progress of Prince Alfred through the Colonies. All manner of presentations were made to him, which he generously condescended to accept. Addresses of welcome were delivered, balls and soirées given, and other exhibitions of loyalty manifested.

The Legislature adjourned to the 23rd January, when it again met according to agreement for the purpose of enabling the members of both Houses to avail themselves of His Royal Highness's visit to give expression to their feelings of loyalty and devotion to the Queen. Addresses previously agreed to were presented, and the Parliament adjourned till the 25th February. The interval was filled with presentations, balls, visits to public institutions, and rural and urban excursions by road, rail and river.

**Victoria.**  
Despatches from Melbourne, dated Feb'y 29th, contain the following:

M'Gane, clerk to the Hon Mr Clark, has been found guilty of embezzlement.

Parliament was to meet on the 10th of March.

Richard Conlon, Treasurer of the Collingwood Foresters, has been brought up on a charge of embezzling the funds of their lodge.

**Adelaide.**  
Sir Dominick Daly, the Governor of the Province, died at Adelaide February 27th.

It is reported that Government statistics for the past harvest have been made up, and the average of the land reaped will be under seven bushels.

The experiments carried out by Dr Schomburg and others show that wheat shrivelled by rust is perfectly fit for seed.

Several deputations have waited on the Government, requesting aid to farmers by the distribution of seed wheat, but they refuse, on the ground that no individual case has been brought under their notice where assistance is required.

Large election meetings are being held in various districts, but there is great difficulty in procuring candidates. Payment of members is very generally denounced.

The action for libel brought by Mr Bright against Dunlop newspaper resulted in a verdict for the defendant. There was great excitement at Gawler and an ovation to Mr Barnett, the editor.

The Government, finding it impossible to prevent the importation of sheep from Victoria by proclamation, have determined that all the sheep crossing the boundary shall be branded with the letter V.

**New Zealand.**  
The news from New Zealand is of considerable importance. The Newcastle Chronicle of February 22d says: From the news to hand it would appear that the whole Province of Canterbury has been visited with most disastrous floods, resulting in the loss of a considerable number of lives, several vessels, and a fearful amount of property on land.

**Victoria Rifle Corps.**—Compulsory drill, Wednesday, at 8 p. m. Position drill Tuesday and Friday at 8 p. m. By Order J. GORDON VINTER, Lieut and Adjutant.

**Royal Artillery.**—Holloway's Ointment and Pills.—A sergeant in the Royal Artillery writes, on December 12th, 1867, from Poonamattre, Madras Presidency, that his right leg, from the ankle to the calf, was a quagmire of disease and corruption that he was on the hospital roll for twelve months without any improvement in his case; that he, as a forlorn hope, resolved to try Holloway's celebrated Ointment and Pills. These soon gave ease, expelled the bad humours from the limb, healed the apparently incurable sore, and restored him to sound health. Soldiers and sailors are earnestly recommended to have recourse to these invaluable medicaments for curing old wounds, sores, or ulcers—more particularly when they have arisen from imprudence, and seem incurable.

**PIMPLES, BLOTCHES,** and roughness of the skin generally arise from depraved or vitiated humors. Bristol's Sarsaparilla is the best of all known purifiers of the blood and humors. This unflinching detergent neutralizes the poison, and occasional doses of Bristol's Sarsaparilla, taken at same time, purge out the unhealthy secretions, insuring a smooth, white, soft skin.

**TAKE AYER'S PILLS** for all the purposes of a purgative, for Constipation, Indigestion, Headache and Liver Complaint. By universal accord, they are the best of all purgatives for family use.

**The best Remedy for Purifying the Blood,** strengthening the Nerves, restoring the Lost Appetite, and curing all Skin Diseases, is

It is the best preservative against almost any sickness, used timely. Composed of herbs only, it can be given safely to infants. Full directions in English, French, Spanish, and German, with every package. 25¢ per bottle. For sale at the wholesale and retail drug stores and groceries.

## Medical.

# French Medicines,

PREPARED BY  
**GRIMAULT & CO.**  
Chemists to H.I.P. Prince Napoleon,  
PARIS.

THESE different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine and have been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorised by the Government. This fact must be a guarantee for the excellence of Messrs. Grimault & Co.'s Medicines.

### NO MORE COD LIVER OIL!

## Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite. It regenerates the constitution by purifying the blood, and its most powerful depurative known. It has also been applied with happy results in Diseases of the Skin. Further, it will be found to be of great benefit to young children subject to Humors and Obstructions of the Glands.

### NSUMPTION CURED!

## Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Phthisis and other Diseases of the Lungs. It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.  
N.B.—Be sure to see that the signature of Grimault & Co. is affixed to the bottle, as this Syrup is liable to imitations.

### NO MORE DIFFICULT OR PAINFUL DIGESTION!

## DR BURIN DUBUISSON'S DIGESTIVE LOZENGES

(Laureate of the Paris Imperial Academy of Medicine)

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis, Gastralgia, Wind in the Stomach and Bowels, Emaciation, Jaundice, and Complaints of the Liver & Lungs.

### NERVOUS HEADACHE,

### NEURALGIA,

### DIARRHŒA, DYSENTERY,

### INSTANTLY CURED BY

## Grimault's Guarana.

This vegetable substance, which grows in the Brazil has been employed since time immemorial to cure inflammation of the Bowels. It has proved to be of the greatest service in cases of Cholera, as it is a preventive and a cure in cases of Diarrhœa.

### NO MORE COPAIBA OR CUBEBS!

## Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr. Ricard, and found greatly superior to all hitherto known mineral remedies and Copal and Cubebs. The Injection is used in recent, and capsules in more chronic cases.

### GENERAL DEPOTS:
